

SOP for ABC ID

Step 1. Login in iCloud

Step 2. Click Profile

Step 3. Click and Create ABC ID

Step 4. Enter your Details such as “Aadhar Number” and click on create and update “ABC ID”

The screenshot shows a web application interface with a user profile on the left and a modal window titled "Update/Create ABC ID" in the center. The modal has two tabs: "Update ABC ID" and "Create ABC ID", with the latter being selected. The form contains the following fields: "Aadhaar Name" (filled with "Aditya Raj Singh"), "Aadhaar Number" (placeholder "AADHAR NUMBER"), "Date of Birth" (filled with "19/07/2006"), and "Gender" (dropdown menu showing "Male"). There is a large blue rectangular button in the center of the form and a "Create" button at the bottom right. The background shows a user profile for "Aditya Raj Singh" with a photo, name, and various details.

The screenshot shows the same web application interface, but the modal window is now in the "Update ABC ID" tab. The form contains a single text input field labeled "Enter ABC ID" and an "Update/verify" button at the bottom. The background profile information for "Aditya Raj Singh" is visible, including his father's name "Mukesh nandan singh" and his address "Swarn Nagri, Greater noida, 201 310".
