GALGOTIAS UNIVERSITY

GRADE A+ Accredited University

School of Computer Science and Engineering

Notification

As per the data provided by the BTech Final Year PCs, it has been observed that more than 20% of students have not taken their IA1 and IA2 assessments. As a result, faculty members are unable to upload the IA1 and IA2 marks to iCloud on time.

This is the final opportunity for students, including NOC students, who have not yet attempted the assessments to complete their IAs by **05.10.2024**. After this date, no further attempts will be entertained.

Note: As per instructions from higher authorities, the marks from the scheduled IA1 and IA2 will account for only 70% of the total score

Dr. Shankar Ramamoorthy
Dean, School of Computer Science and Engineering
